REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The primary reason for allowance of claims 1-8, 10-16, and 23 is the inclusion of a filling means for filling a mechanical gap between the glass plate and the electrostatic printing plate with a clear toner diluent; and transferring toner particles from the printing plate onto the glass plate across the diluent filled mechanical gap. This is found in all of claims 1-8, 10-16, and 23, but not disclosed nor suggested by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

New corrected formal drawings are required in this application because the drawing corrections filed 5/28/03 and 11/24/03 are informal. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

Remarks

It is noted from remarks, filed with the amendment on 3/22/04, made by applicant's representative, on page 7, paragraph 3, stating that "this amendment is fully supported by the specification, claims, and drawings as originally filed... it is believed no

new matter has been added by these amendments". Examiner interprets these statements to also refer to the substitute specification filed 1/20/04 (marked up copy) that it also has no new matter.
